INTEGRATED AMPLIFIER

CREEK AUDIO VOYAGE I20

Once the go-to brand for no-frills budget audiophile amplification, Creek has gone up in the world with this, its most expensive ever integrated. And with it, there's been a step change in functionality, upgradability and – most important of all – sonics. The \$7,995 Voyage i20 retains the brand's trademark musicality, but adds high end levels of insight and detail, plus loads of power. A highly polished, super flexible package.

4980,-
